# Fire Triangle

# AGENCIES

# About us

Fire Triangle Has been founded in early 2013, during this time Fire Triangle has grown to become one of the largest specialized companies covering all aspects of work in the area of Fire Fighting & Fire Alarm field in Egypt.

By the start of 2015, Fire Triangle has become an authorized distributor for many reputed companies, covering all the range of firefighting systems

Our qualified Engineers and Technicians will offer you the highest quality, accuracy and speed for firefighting systems maintenance.

Our specialized teams will ensure the efficiency of firefighting systems and will test each system to ensure the required operation and performance

# Our Mission.

Our Mission is to provide Safety & Protection for persons & properties by providing the highest quality of Fire Alarm & Fire Fighting systems

# Our Vision.

Our Vision is to fulfill our commitment to all our clients by providing highest quality with the most cost efficiency -in this time of rising costs- and implement the requirements of safety & protection for persons & properties as per NFPA standards & Egyptian Codes.

# Our Work Scope

Providing a wide range of services in Fire Protection field starting from Design, Supply, Installation & Maintenance of all Fire Alarm & Fire Fighting systems

# FIRE PUMP HOUSE (PRE-PACKAGED FIRE SYSTEMS)

WF Fire Pump House (Pre-packaged fire systems) designed according to the site or client's preferences while complying standard requirements. Due to its single source responsibility and compact feature, the on-site installation of the system can be completed in as little as 6 hours which reduces the installation cost, labor hours, project timelines and eliminates potential field installation and interface problems. Pre-wired, factory tested and assembled with components selected from the most reliable manufacturers across the globe in order to ensure that the best functionality of the equipment will be delivered. Consist of UL Listed or FM Approved fire pumps, controllers, valves, pressure gauges, flowmeter, fuel tanks etc.
